

Children International Fact Sheet

THE FACTS

Millions of the world's children live in poverty. But we believe poverty is a solvable issue. Because once you break the cycle of poverty for one child, you'll impact generations to come.

ABOUT US

Children International is a top-rated humanitarian organization focused on ending poverty by providing focused high-impact programs to children and teens. We work in 10 countries: Colombia, the Dominican Republic, Ecuador, Guatemala, Honduras, India, Mexico, the Philippines, the U.S.A. and Zambia.

OUR VISION

It's a bold one: to graduate healthy, educated and empowered young adults who have the drive and job skills to become employed and break the cycle of poverty. Period.

OUR PLAN OF ACTION

We offer the kids in our program:

1. **A place:** We create community centers — physical buildings that give kids a safe place to play and learn with resources like libraries, medical and dental care, computer labs and playgrounds.
2. **A team:** We hire local professionals who really know their communities. These tutors, doctors, dentists, social workers and volunteers (about 8,000) provide a support network for our kids.
3. **A path (guided by a holistic approach):** We focus on helping kids graduate from our program healthy, educated, employable and empowered to break the cycle of poverty. Our programs focus on critical issues like health, education completion, social and financial responsibility and preparing for careers.
4. **An ability to adapt:** Depending on the country, life in poverty means different hardships, challenges and solutions. So we customize our programs to fit kids' needs based on country, age and life circumstances.
